Unit 2 Online & Connected 2019

Virtual Communities and Networks

Student A: What's your favorite social media app?

Student B: I would have to say that WhatsApp is my favorite.

Student A: Why's that?

Student B: I like WhatsApp because I can use it to talk to my friends, send voice messages, and make video calls. I can even upload stories to show friends what I'm doing.

Student A: Now that you mention it, I use WhatsApp significantly more than most of my others apps.

Student B: What is your favorite app?

Student A: I think my favorite app is Instagram. However, I also really like Duolingo, because it helps me learn different languages.

Student A: I don't have Duolingo. I will have to download that later.

Student B: You should! Also, have you heard of LinkedIn?

Student A: No, what's that?

Student B: It is a professional networking app that will help you find a job. It's quite useful.

Student A: That does sound useful, I need to find a new job this summer. Will you send me a link so I can download it?

Student B: Absolutely!

Student A: Thank you, I appreciate it! I will be using it a lot in the near future to find work.

Student B: My pleasure!
