

# Teacher's Guide for the New English Curriculum

## Ninth Grade

### Unit 2 Online & Connected 2019

## The Magical World of Apps

**Student A:** There are so many different apps that exist now!

**Student B:** Aren't there? I have at least 30 different apps on my phone, but I think I only use about 5.

**Student A:** Me too! I will have to clean my phone out soon, I am running out of space.

**Student B:** What are the apps that you use the most?

**Student A:** I would say I use WhatsApp and Waze the most. I use them to talk to friends and to get from place to place.

**Student B:** I currently use Snapchat the most, however I think I will be using Wordpress and different photo editors more in the future; I just started a blog.

**Student A:** How interesting! What is it about?

**Student A:** It is a travel blog, I will write about the different places that I visit.

**Student B:** That's awesome, what places will you visit?

**Student A:** This year I will be visiting California and Mexico, and hopefully a few places in Costa Rica.

**Student B:** What kinds of places?

**Student A:** In June I am planning to go to Drake's Bay, where I will go snorkeling and whale-watching. In October I will be going to Tortugero to watch the turtles hatching.

**Student B:** Make sure you take lots of pictures!

**Student A:** I will! I am planning to take pictures and write a lot about all of these places. Hopefully I will also be posting to Trip Advisor to give recommendations to other people who may be interested in travelling to these places.

**Student B:** That's an excellent idea, I'll be looking for your new posts!
