

Teacher's Guide for the New English Curriculum

Ninth Grade

Unit 4 In The Public Eye 2019

Success and Fame

Student A: What is your proudest moment in life?

Student B: Probably when I graduated from college.

Student A: Same! I enjoyed college too. Why did you like it?

Student B: I was having the time of my life, working, studying, meeting new people. I loved it!

Student A: If it wasn't for college I wouldn't have met my best friend!

Student B: I had been a couch potato for a long time in high school until I went to college and had to learn to take care of myself.

Student A: Seriously, going to college helped teach me how to become a responsible adult.

Student B: College taught me how to be independent and work hard in my classes.

Student A: When I first got to university. I couldn't pass my math class. It wasn't until I had learned to study and take my classes seriously in my second year of school that I passed it.

Student B: What did you study?

Student A: I studied engineering. If I hadn't studied that, I would have studied agriculture.

Student B: I heard agriculture is a fun major!

Student A: It wouldn't have been that difficult either, I heard the classes are really interesting.

Student B: Anyway, I succeeded in my goal of finishing college and now I can't believe I found a job.

Student A: Thanks for sharing your success story!
