

Teacher's Guide for the New English Curriculum Ninth Grade

Unit 5 Unexpected Situations 2019

Home Emergencies

Child: Good morning, mom, I don't feel very good today.

Mother: Oh no, sweetie. What seems to be the problem?

Child: My nose and eyes feel swollen.

Mother: Sounds like you have a virus or a cold. Did you take any aspirin?

Child: Yes, but I still have a headache.

Mother: Take some cold tablets. If you don't feel better soon, I'll take you to the hospital to get an injection.

Child: Do we need to make an appointment?

Mother: No, we'll just go check in at the emergency room. Call and find out how long the wait is.

Child: Okay, can we please go now? I feel really awful.

Mother: Yes, be sure to ask for some cough syrup, too.

Child: Ok, sure, because I also have a sore throat.

Mother: But let's go now. We can't wait!

Child: Yes, let's go on the bus at 9:00 a.m.

Mother: Ok, make sure we don't forget to call your father to let him know where we are.

Child: Alright. I'll call him right now. Let's go!
